

SHARP

XE-A212

Sharp, the UK's number one ECR brand*, introduces you to a clever, easy-to-use electronic cash register (ECR) that makes running your hospitality business so much easier. With the quick, efficient and accurate XE-A212 by your side, you can concentrate on looking after your customers and growing your business.

- ✓ Ideal for small but busy restaurants and cafés
- ✓ Quick, silent printing minimises point of sale disruption
- ✓ Two-line LCD operator display
- ✓ Electronic journal stores transaction data
- ✓ Flat spill-proof keyboard
- ✓ RS-232 interface for on-line capability
- ✓ Secure locking spacious cash drawer

SHARP

FOCUS ON XE-A212

There are numerous reasons why the XE-A212 electronic cash register from Sharp is an ideal investment for retail and hospitality outlets, especially as its flat, spill-proof keyboard is perfect for busy pubs, bars, café bars and restaurants.

Quick, quiet and easy to use!

Easy to programme, with a maximum of 1,200 PLUs (price look ups), entering pricing information is simplicity itself. It is great to view too. Clear and easy-to-read LCD displays ensure accurate transactions for both operator and the customer.

A silent thermal printer, complete with new time-saving drop-in paper loader, produces fast sales receipts with the option of carrying your business logo and cash-generating sales messages.

Secure cash, secure information

A high-capacity, space-efficient metal cash drawer takes up minimal counter space but has more than enough room for five bill and eight coin compartments. When not in use, the ruggedly-built drawer is locked shut, safeguarding your takings.

All the day's transaction activity can be stored electronically in the electronic cash register's memory and recalled at your discretion for analysis. You can also call up and print out necessary data when needed.

And while it does the business, you and your staff can look after your customers. Little wonder the XE-A212 is proving to be so popular.
